SUMMARY

I'm Jacob Delgado, a motivated and adaptable professional with a passion for both business and technology. With a solid foundation in International Business from Florida International University, I've ventured into the exciting realm of Full Stack Software Development at the University of Miami. As I continue my education in software development, I'm deeply motivated to bridge the gap between business and technology. My diverse background equips me with a unique perspective to understand user needs, strategic planning, and effective implementation. I'm enthusiastic about learning new technologies and methodologies that will enable me to build cutting-edge applications that can shape the future.

TECHNICAL SKILLS

Frontend: HTML5, CSS, JQuery, Javascript, AJAX, SASS

Backend: MySQL, MERN Stack (MongoDB, Express.js, React.js, Node.js), Python

PROJECTS

PWA: Text Editor

GitHub: /Jdelg140/text-editor-PWA | Link: <https://jate-editor-19-0260c1590efc.herokuapp.com/> • July 2023 - Present

- Summary: Create code snippets with/without an internet connection.
- Role: Sole author/ Contributor.
- Tools: HTML, CSS, JavaScript, Express.js, PWA, Heroku.

E-commerce-Backend Database

GitHub: /Jdelg140/E-Commerce-Backend • July 2023 - Present

- Summary: E-commerce backend application used to seed MySQL tables with products, tags, and categories.
- Role: Sole author/ Contributor.
- Tools: JavaScript, Express.js, MySQL, Index Models.

Sports Standings Tracker

GitHub: /juanx198522/Sport-Standings-Tracker | Link: <https://juanx198522.github.io/Sport-Standings-Tracker/> • May 2023 - Present

- Summary: Application that provides live scores and standings for Soccer and Motoring Leagues.
- Role: Front end designer/ API implementation.
- Tools: HTML, CSS, JavaScript, jQuery, Cloud fare, Server Side API's.
